

Senior CommUnity Care of North Carolina

To Whom It May Concern:

We are sending a letter to all participants and caregivers in hopes to improve communication between the participants, caregivers and the staff here at Senior CommUnity Care of North Carolina (SCCNC). This process is not to replace phone correspondence, but to improve overall communication. We are creating a system where participants and caregivers can be in communication with staff as well as be notified of upcoming events and inclement weather. Any emails sent that include Personal Health Information will be sent securely, all other emails such as general marketing emails will not be secured. Please check a box below to reflect your interest in receiving email's from SCCNC staff. If you choose to participate in this process, please provide an e-mail address that we could best contact you at. Please return this letter either by mail to the address listed below or with your loved one on their scheduled center day with your decision. If you have any questions, please contact Allison Whitaker or Jane Venick at the listed numbers below.
